

Instructor Certification Course

Occupational Health & Safety

By the end of this Instructor Certification course you will be able to:

- ▶ Implement classroom theory and field activities training.
- ▶ Apply adult learning principles and manage a classroom.
- ▶ Understand the training delivery methods and objectives.
- ▶ Understand student observation and evaluation process.
- ▶ Understand continuing education requirements.
- ▶ Understand administrative obligations.
- ▶ Understand procedures for record maintenance.
- ▶ Understand the OH&S Registry process.

Our Instructor Certification Course has been developed to address the needs for consistency and quality for occupational health and safety instructor development and certification training.

The goal of this course is to improve instructor participants knowledge, skill and abilities to deliver occupational health and safety training in the workplace.

The course will ensure that all administrative obligations, delivery requirements, the criteria for training completion and the issuance of student certification have been achieved.

You will achieve this through discussion and by participating in interactive group exercises.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
