

Workplace Inspections

Joint Occupational Health and Safety Committee
and Worker Representatives

British Columbia

8 HOUR TRAINING COURSE

By the end of this course you will have covered the following issues:

- ▶ Legislation and Compliance.
- ▶ The Purpose of an Inspection.
- ▶ Planning and Conducting the Inspection.
- ▶ The Gathering of Information.
- ▶ Completing an Inspection Report.
- ▶ Recommendations and Corrective Actions.
- ▶ Implementation and Monitoring.
- ▶ The Responsibilities of Committee Representatives.

Our Workplace Inspections training course focuses on the process of planning and conducting effective inspections of work areas on a regular basis to identify and record actual and potential hazards, to determine whether existing hazard controls are adequate and recommending corrective action be taken where it is necessary.

Employers of provincially regulated organizations are responsible for the establishment of a health and safety committee in the workplace. Most Canadian health and safety legislations set the guidelines for organizing the committee.

We will achieve this through supportive classroom discussion, and by participating in collaborative exercises.

OH&S Safety Consulting and Training Solutions Ltd.

825 - J Laval Crescent
Kamloops, British Columbia, V2C 5P2

www.ohandscanada.ca

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
