

Confined Space Entry Supervisor for British Columbia

8 HOUR OPERATIONS COURSE

Our Confined Space Entry Supervisor training course has been developed for those with an occupational requirement to be trained to safely manage work in confined spaces.

This training program is suitable for personnel who are required to plan and supervise confined space operations. Including those personnel who are required to prepare Safe Work Permits for Hazard Assessment, Methods of Work, Rescue Plans and Confined Space Entry Codes of Practice.

This Confined Space Entry Supervisor course will also establish an understanding of the statutory requirements of the federal COHS, Provincial and Territorial OH&S legislations.

We will achieve this through discussion and by participating in corroborative group exercises.

By the end of this Confined Space Entry Supervisor course you will be able to:

- ▶ Understand confined space characteristics and classifications.
- ▶ Understand and apply the company code of practice.
- ▶ Undertake hazard/risk assessments for confined space entry.
- ▶ Develop safe work permits.
- ▶ Select and install control measures.
- ▶ Understand the mechanism of atmosphere testing.
- ▶ Implement emergency plans and procedures.
- ▶ Understand maintenance of records requirements.

OH&S Safety Consulting and Training Solutions Ltd.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
