

Ground Disturbance Advanced Level 2

Field Safety, Public Security and the Environment

8 HOUR COURSE

This Ground Disturbance Advanced Level 2 training course has been designed for those with an occupational requirement to be trained to safely undertake work activities that involve ground disturbance and is also intended for personnel who are required to manage, plan and supervise ground disturbance operations.

This course will provide supervisors with the knowledge to ensure that all ground disturbance is done in accordance with the governing code of practice, applicable regulations, and the terms and conditions of all project specific agreements and approvals.

This Ground Disturbance course will also establish an understanding of the statutory requirements of the Provincial, Territorial OH&S legislations, and Federal Acts & Regulations. Including the National Energy Board.

We will achieve the course objective by participating in classroom discussion.

This course will provide the participant with the necessary knowledge regarding:

- ▶ Hazard Awareness and Control Procedures.
- ▶ Locate Marks & Locate Plans, Written Permissions and Approvals.
- ▶ Exposure of Buried Facilities and Contact with the Buried Facility.
- ▶ Mechanical Excavation and Overhead Power Limits of Approach.
- ▶ Ground Disturbance Protective Systems & Emergency Action Planning.
- ▶ Ground Disturbance Supervisors Responsibilities and Documentation.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
