

Workplace Hazardous Material Information System

WHMIS 2015 GHS Worker Protection

4 HOUR COURSE

This course will provide the participant with the necessary knowledge regarding;

- ▶ Identify the WHMIS Responsibilities of Suppliers, Employers, and Workers.
- ▶ Workplace Requirements for Supplier Labels and Workplace Labels.
- ▶ Recognize the WHMIS Pictograms and the Types of Hazard each Represents.
- ▶ Recognize the Safety Data Sheet (SDS) as a source of Information and how to use the SDS.
- ▶ Identify WHMIS Exemptions for Suppliers and Importers.
- ▶ Know General Safe Work Practices to be followed when working with Hazardous Products.

The WHMIS 2015 Worker Protection safety training course has been designed to provide general information to workers, members of joint health and safety committees, supervisors, and managers.

The goal of this course is to convey particulars about health hazards, requirements for worker protection, safe work procedures, inspection criteria used to identify and control worker exposure to hazardous materials in the workplace.

This WHMIS 2015 Worker Protection course will also establish an understanding of the statutory requirements of the federal COHS, Provincial and Territorial OH&S legislations.

We will achieve the course objectives by participating in classroom discussion.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
