

# Accident and Incident Investigations

Joint Occupational Health and Safety Committee  
and Worker Representatives  
**British Columbia**

**8 HOUR TRAINING COURSE**

Our Accident and Incident Investigations training course focuses on the investigation of accidents and incidents. Identifying corrective actions to address any unsafe conditions, procedures or acts can help prevent further incidents, accidents and reduce the number of injuries at the workplace.

The goal of this training course is to ensure that you understand your responsibilities when conducting an accident investigation, that you are aware of the need for regulatory compliance and that you receive adequate instruction in the accident investigation system.

We will achieve this through supportive classroom discussion, and by participating in collaborative exercises.

By the end of this course you will have covered the following issues:

- ▶ Legislation and Compliance.
- ▶ The Incident Investigations Process.
- ▶ Preparing and Responding to an Incident.
- ▶ The Investigation Stages
  - Preliminary Investigation and Interim Actions.
  - Full Investigation and Final Corrective Actions.
- ▶ Reporting Process.
- ▶ WorksafeBC Investigations.

## **OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.**

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

### **ON-SITE TRAINING**

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

### **COURSE DEVELOPMENT**

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
