

Articulated Truck Operator

General Industry Applications

8 HOUR AWARENESS COURSE - 16 HOUR OPERATOR COURSE

This Articulated Truck Operator training course has been designed for those with an occupational requirement to be trained to safely undertake work activities that involve the operation of an Articulated Truck.

The goal of this course is to help you understand what the operator responsibilities are and how to manage those responsibilities to protect your health and safety and your co-workers.

This Articulated Truck Operator course will also establish an understanding of the statutory requirements of the federal COHS, Provincial and Territorial OH&S legislations.

We will achieve this through discussion and by participating in skills practice and operator performance evaluation.

This course will provide the participant with the necessary knowledge regarding;

- ▶ Identify the Components, Controls and Safety Equipment on a Typical Articulated Truck.
- ▶ Describe the Uses of an Articulated Truck.
- ▶ Perform Pre-start Inspection and Maintenance Procedures.
- ▶ Explain Safety Rules for Operating an Articulated Truck.
- ▶ Start, Warm up, Shut Down and Refuelling Considerations.
- ▶ Perform Basic Manoeuvres and Basic Earthmoving Operations with an Articulated Truck.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
