

Control of Hazardous Energy Lockout / Tagout

General Industry LOTO Safe Work Applications

4 HOUR COURSE

This course will provide the participant with the necessary knowledge regarding;

- ▶ Awareness of Occupational Regulations and Legislations.
- ▶ Awareness of the Company Lockout Tagout Program.
- ▶ Hazards Present and the Potential Effects.
- ▶ Capabilities and Limitations of Lockout Tagout.
- ▶ Lockout Tagout Device Selection Criteria.
- ▶ Proper use of the Lockout Tagout Devices.

This Control of Hazardous Energy Lockout Tagout safety course has been designed for those with an occupational requirement to safely undertake LOTO activities used during the servicing and maintenance of equipment and machinery. This course is also intended for personnel who are required to supervise Lockout Tagout operations.

The goal of this course is to help you better understand what your responsibilities are for the control of hazardous energy and how to manage those responsibilities to protect your health and safety as well as your co-workers.

Control of Hazardous Energy Lockout Tagout course will also establish an understanding of the statutory requirements of the federal COHS, Provincial and Territorial OH&S legislations.

We will achieve these objectives through classroom discussion.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
