

Motorized Pallet Jack Operator

Walkie and Walkie Rider Pallet Truck Safety

4 HOUR AWARENESS COURSE - 8 HOUR OPERATOR COURSE

This Motorized Pallet Jack Operator training program has been designed for those with an occupational requirement to be trained to safely undertake work activities that involve the operation of a Motorized Pallet Jack.

The goal of this course is to help you better understand what a Motorized Pallet Jack operator responsibilities are and how to manage those responsibilities to protect your health and safety and the health and safety of your co-workers.

This Safe Handling of Pallets and Skids course will also establish an understanding of the statutory requirements of the federal COHS, Provincial and Territorial OH&S legislations.

We will achieve this through discussion and by participating in skills practice and operator performance evaluation.

This course will provide the participant with the necessary knowledge regarding;

- ▶ Motorized Pallet Jack Features and Safety Equipment.
- ▶ Stability, the capacity plate and Location.
- ▶ Pre-operational Inspection.
- ▶ Operating and Travelling, with and without a Load.
- ▶ Pedestrians.
- ▶ Load Handling.
- ▶ Ramps and Grades.
- ▶ Workplace Specific Hazards.
- ▶ Procedures for Parking, Shut Down, and Recharging.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
