

# Emergency Oxygen Delivery

## Basic Life Support - Integrating Oxygen

4 HOUR COURSE

This course will provide the participant with the necessary knowledge regarding:

- ▶ Priority of Personal Safety and the Hazards Associated with the use of Emergency Oxygen.
- ▶ Recognize where Emergency Oxygen will be Beneficial.
- ▶ The Patient Management Model.
- ▶ Attaching and Operating Pulse Oximetry.
- ▶ Practice Safe Handling Techniques when using Emergency Oxygen Equipment;
  - Oxygen Cylinders,
  - Oxygen Regulators,
  - Oxygen Delivery Devices.
- ▶ Integrating and Administering Emergency Oxygen to Breathing and Non-breathing Patients.

This Emergency Oxygen Delivery training course has been designed for those with an occupational requirement to respond to a medical emergency at work. This training will focus on the knowledge and skills necessary for a workplace first aid attendant to safely integrate the use of an oxygen delivery system during emergency patient care.

This training course is intended for use by certified first aid attendants that have previous workplace experience responding to worker emergencies.

This Emergency Oxygen Delivery course will also establish an understanding of the statutory requirements of the federal COHS, Provincial and Territorial OH&S legislations.

We will achieve these objectives through discussion and by participating in skills based practice using oxygen delivery equipment.

## OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

### ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

### COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
