

Ground Disturbance Advanced CGA 201 for Alberta

Field Safety, Public Security and the Environment

8 HOUR COURSE

This course will provide the participant with the necessary knowledge regarding:

- ▶ Legislation and Work Standards.
- ▶ Training and Supervision Standards.
- ▶ Supervision of Ground Disturbance.
- ▶ Emergency Action Planning.
- ▶ Work Site Inspections
(Searching for Buried Facilities).
- ▶ Locate Plans, Written Permissions
and Approvals.
- ▶ Exposure of Buried Facilities and
Mechanical Excavation.
- ▶ Contact with a Buried Facility.
- ▶ Ground Disturbance Documentation.

This Ground Disturbance training course has been designed for those with an occupational requirement to be trained to safely undertake work activities that involve ground disturbance and is intended for personnel who are required to manage, plan and supervise ground disturbance operations.

Supervisory level ground disturbance training is intended to provide the necessary information to manage ground disturbance activities near buried facilities safely with the intended goals of preventing damage to buried facilities and complying with regulatory requirements.

The Utility Safety Partners is the Alberta regional partner of the Common Ground Alliance in Canada. The Alberta Common Ground Alliance, The Alberta One-Call, and the Joint Utility Safety Team have united under one name: Utility Safety Partners. The Utility Safety Partners Training Standards Committee has endorsed the OH&S Ground Disturbance Advanced CGA 201 program (Alberta).

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
