

Ground Disturbance Advanced CGA 201 for British Columbia

Field Safety, Public Security and the Environment
8 HOUR COURSE

This Ground Disturbance training course has been designed for those with an occupational requirement to be trained to safely undertake work activities that involve ground disturbance and is intended for personnel who are required to manage, plan and supervise ground disturbance operations.

Supervisory level ground disturbance training is only one aspect of the training that a ground disturbance project supervisor needs to have. This Ground Disturbance program meets the core requirements of the British Columbia Common Ground Alliance Ground Disturbance Standard 201.

OH&S Ground Disturbance Advanced for CGA 201 for British Columbia Program is endorsed by the British Columbia Common Ground Alliance (BCCGA).

This course will provide the participant with the necessary knowledge regarding:

- ▶ Legislation and Work Standards.
- ▶ Training and Supervision Standards.
- ▶ Supervision of Ground Disturbance.
- ▶ Emergency Action Planning.
- ▶ Work Site Inspections
(Searching for Buried Facilities).
- ▶ Locate Plans, Written Permissions and Approvals.
- ▶ Exposure of Buried Facilities and Mechanical Excavation.
- ▶ Contact with a Buried Facility.
- ▶ Ground Disturbance Documentation.

OH&S SAFETY CONSULTING AND TRAINING SOLUTIONS LTD.

OH&S Safety Consulting and Training Solutions is a leading provider of industrial safety training, consultation, and equipment in Kamloops and the rest of Western Canada.

Our goal is to provide you with the most current and up to date training available in all aspects of Work Place Safety. The Certifications you will receive from OH&S will be Nationally Accredited and allow you to work safely on job sites across Canada.

Our selection of safety courses and training offer you nationally accredited training that is both comprehensive and easy to understand. We strive to make the learning experience comfortable and convenient. This means going above and beyond in making sure that our students understand the curriculum and are able to demonstrate competency in their performance.

ON-SITE TRAINING

Phone and ask us about safety courses and training conducted at your workplace. Even if you need a course that is not currently on our calendar, we will try our hardest to help you meet your training needs. We strive to be a flexible training provider and that means providing our clients with high quality training when and where they need it.

COURSE DEVELOPMENT

Does your business need fully customized safety courses and training? Or do none of the current course offerings fit your needs? Ask us about customized and professional course development for your workplace. We will incorporate materials and information related to the work you do. Custom training is more engaging because employees see the relevance and applicability of what they learn.
